DORROUGHBY EEC TERM 2 2020

Please distribute this newsletter to all teachers interested in Sustainability Education/Outdoor Classrooms.

GENERAL NEWS

Jingelah Bloggerman! Hello Colleagues!

DEEC has been adjusting, as we all have, to this Brave New World we find ourselves in. Incursions, excursions, professional learning workshops and camps with DEEC have been cancelled until at least Week 5 of this term but we would like to let you know that we are still working away to support our school communities.

NEW REMOTE LEARNING OPPORTUNITIES.

The Environmental and Zoo Centres (EZEC) have created a range of resources to support teaching and learning from home. The resources were developed by Department of Education teachers from 25 Environmental and Zoo Education Centres in NSW. Some resources are designed for teachers, others are designed for student use. The types of resources include: Google Sites, worksheets, virtual field study programs on different biomes, and many more curriculum based programs. These can be accessed via our school website's home page under **Remote Lessons**, or sign into your google account and put in these links.

K-6 - <https://sites.google.com/education.nsw.gov.au/primary-school-resources/home>

7-12 <https://sites.google.com/education.nsw.gov.au/high-school-resources/home>

Environment = Life

The team at Dorroughby are, as well as contributing to the EZEC library of remote resources, busy converting our most popular programs into remote learning lessons. **For K-6 teachers** we have created 4 local history lessons, 3 science lessons and 5 Maths in Nature lessons. These lessons don't need internet access, have elements of outdoor learning and include hands on activities. Links are found from our school's website home page, under the heading of **Remote Lessons**, or log into your google account and follow these links.

KLA	Lesson	Link
History	The Big Scrub	https://drive.google.com/open?id=1q-IN4CUJvogFqChW19B_URKxPqsQBidB
	The Cedar Getters	https://drive.google.com/open?id=1iBiG5XEPWypeLIUqL-QIEfhEPQ5aF2FW

For **Secondary teachers**, we have chosen our most popular field study program - Brunswick Heads field study - focusing on local Mangroves and Littoral Rainforest. We are creating a virtual field study lesson based on DEEC's existing program. This google site lesson will enable students to work through their work booklet with resources embedded into the google site. It will include videoed experts; history and geology components; virtual belt vegetation and abiotic transects, virtual quadrats and field sketches. This should be ready by the end of Week 3.

We will be looking at other local Field Studies that we can convert to online google sites when we complete our first. Once again, a reminder that the EZEC Secondary Remote Learning site has many curriculum-based virtual field study sites based on NSW biomes (see information on page 1) to use specifically with Science and Geography students.

DEEC 2020 Art Camp for Year 5

Our Gifted and Talented Visual and Performing Environmental Arts camp has **been moved back to Term 4 this year - Nov 17th - 19th 2020.** This year we will build skills in film making with a documentary on how young people can address feelings about climate change, digital photography, create theatre in the bush, participate in a drumming for self expression workshop and much more. Schools are to nominate **ONLY 3** stage 3 students who are environmentally minded and artistically gifted. Places are limited and **FIRST IN FIRST SERVED** so contact DEEC to get your application in ASAP (see website or contact the centre)

Green Innovation Awards 2020

Our local 2020 Green Innovation Awards have been moved to later in the year. If you have a passionate Environmentalist on your staff please pass this link on...

www.greeninnovationawards.com.au so your students can grab their kit and start collaborating on their environmental innovations. **Registrations have been extended until 3rd July and schools have until 23rd September to submit their entry!**

Feel free if you have an idea of how we can assist you in anyway in the creating of virtual outdoor learning. Thanks to all the staff who continue to support their school communities in these times.

Team Dorroughby.

Environment = Life
